I spent a little while figuring out how I wanted to tackle this logo
I first came up with the name “New Horizons”(that I wouldn’t use later)
and did some sketches on paper so the logo is a horizon with a sun
and a triangle encompassing it to make it more unique
then I added a sound read-out to relate it to music.
After that I kept testing colors until I found 3 that I
personally felt went together, they don’t have any
significance they just compliment each other..
